Members Who Please.

Although held up to the public view as a promoter of the suicides that grow out of depleted pocket books, the conscientious plumber has as much to do with preserving the public health as the ordinary doctor. Upon whether a connection is or is not well made, often depends the well-being of a family; and upon this ground the firm of Mills Bros. may lay claim to much credit.

The plumbing that has just been done at the court house, is a testimonial to that fact. Good workmanship and the best of material are to be seen on every floor, the result being a great improvement over the old order of things at H. S. Woodruff's firm. A plant for making illuminating gas has just been put in by the same firm.

Another extensive contract that has been taken is that of putting stone fixtures in the Jackson block. All of the stores and several of the up-stairs offices are to be heated by a "Florida" boiler under the Rock County National bank. The material is now on the way and plumbing will soon be at work making ready to keep Jack Frost from interfering with business.

THE FIRST BIRTHDAY!

This Anniversary is Fittingly Celebrated by the Girl's Social Club.

And a New Year is Entered Upon Under Favorable Auspices.

What Has Been Done.

It is to be regretted that all those who are interested in the elevation and independence of self-supporting young women of this city were not present at the club room of the Girls Social club on the occasion of the annual meeting. The work of the club was then shown to be on a higher and broader plan than many have imagined. This organization is not in the remotest sense a charity, and any working girl who joins the club simply links herself to her fellow-workers for mutual improvement and recreation thereby showing her desire for culture, advancement, profit in the best and highest directions. It is due to those who have helped inaugurate this enterprise that they should be rendered some account of its working; therefore we give the following report condensed from that read:

In September, 1885, the building now occupied was leased for two years with the understanding that the rent should be equivalent to the rent for the whole of the first year, and that 30 per cent should be the rental for the second year. Before the lease was signed, a mechanic, who was consulted, estimated that the repairs necessary to make the building habitable would cost \$150, which would make the average rent of two years very moderate.

THE EXPENSES OF THE CLUB

For the past year have been as follows:

For repairs—\$20.00

For fuel—\$10.00

For rent—\$10.00

For food and piano rent—\$10.00

Total—\$50.00

The income has been:

From rent of rooms—\$20.00

Subscriptions—\$10.00

Concert in Jan. 1888—\$10.00

Subscription in June—\$10.00

Donations—\$10.00

Total—\$50.00

The room was opened October 15, 1885, with the names of seven girls on our member book. The club was organized October 25. When Miss Conover assumed the office of president, Miss Lily Knoff was elected vice president; Mrs. M. W. Farlow assumed the treasurer; Miss Louise Cox was elected secretary, Miss Valley Lindgren, assistant secretary. Miss Cox served efficiently until July, when she was obliged to resign. Miss Minnie Burroughs now fills the office most acceptably. By the end of November the club numbered 35. 54 members have been enrolled during the year. Some of them have removed to other towns, and a few have withdrawn new members are added.

from month to month. From October to June the room was open both afternoon and evening. It has been closed but one evening excepting Sundays, to the present time. There have been 409 visitors to the room in the afternoon; 1112 in the evenings. The total number being 1521. This report is imperfect, but it is not at all to keep an accurate record of visitors. A class in singing was held every week from November to March, with an attendance varying from twenty to half a dozen. Miss Rose Hathorn was the faithful and accomplished accompanist and generously volunteered to render the same service the coming term. The leader of the class was also assisted by Miss Ella Godden and Miss Kollie. Miss Fannie Draper and Mrs. Crosby have been ready, with few interruptions, to teach knitting and crocheting and other fancy work every Friday evening; they continue in charge of the same. Mrs. Whitehead takes charge of the room on alternate Tuesday evenings from an early day. February 10th she began a course of instruction in THE THEORY OF COOKING and about eight girls profited by her clear, practical, systematic teaching. Since her withdrawal in July Mrs. McElwain has been ready to continue these lessons but this unusual opportunity has not yet been responded to. On alternate Wednesday evenings the Misses Fox have diligently been on hand to teach writing and English brochures. Mrs. Woodruff has had the other Wednesday evening and in the absence of any Mrs. Farlow has been always ready and efficient. Miss Cammings has recently begun to help. This is an excellent opportunity for those desiring to learn to write or to improve their handwriting. These ladies had great satisfaction in the progress made by several Norwegian and German girls in learning to read and write English. Mrs. Maris and Miss Stevens have given lessons in instrumental music. Besides these already mentioned the club is indebted for help to their late concert, Mrs. Maris for ready and efficient help, to their kind and sympathetic neighbor, Mrs. Wallis, and Mrs. Farlow, Mrs. Fouts, and others. While the rooms were opened in the afternoon some one was always present to welcome visitors. Faithful to this charge were Mrs. Wm. McKee, Mrs. Ed. Welch, Mrs. Street, Mrs. Kendall, Mrs. Murray Pratt and Miss Fenslow. Mrs. Geo. Outten, Mrs. Wm. Woodruff, Mrs. Dr. Pearson, Miss Conger, Mrs. Wallis, Miss Malcom and others have also rendered help with more or less regularity. There have been five pupils in

INSTRUMENTAL MUSIC

two of whom have resumed lessons. One member uses the piano for practice and pays for her own lessons. There has been talk of a German class, and a class in elocution but neither have as yet been begun. Besides this industrial and social times in the room have been very delightful; stories have been read aloud and pleasant conversation indulged in. There have been games—checkers, dominoes, Gobang Japanese Oracle, bean-bag, parlor croquet, Twenty questions, magic music. The following entertainments have also been given:

1. Opening night—Music, recitations.

2. Christmas Evening—Music, coffee and cake, games, etc.

3. Musical.

4. Two addresses, January and April, from Dr. Mary W. Hawley.

Music and recitations.

Cooking exhibition.

Illustration of Method of Teaching the

Blind—Miss Watson and pupils with music.

Recitations—Music.

In addition to those who have assisted in the entertainments recorded above, and whom the thanks of the club are most heartily due, Mrs. Bluff, Mrs. Stever, Mrs. Franklin Hawley, Miss Kate Morrissey, Miss Julia Knoff, Miss Theodore Harlow, have, in an informal way, given much pleasure by use of their talents.

THE DAILY PRESS

has treated the club with great generosity, not only furnishing the daily papers to the room, but giving notices and advertising free of charge.

Those who took part in public entertainments in behalf of the club, or contributed to their success, have also the gratitude of its members.

The officers of the club are fully sensible of the wide gap between the achievement and the opportunity of the club. The work has been an experiment, and a plan suitable to this city has had to grow out of experience gained. The simple constitution of the club adopted a few months since was framed in this way

THE PLAN NOW PROPOSED

is that all ladies interested in this work should become honorary members of the club, paying one dollar a year—that these honorary members should from their own number elect a president and treasurer; that vice president, secretary, assistant secretary, and assistant treasurer should be elected by the club from among their numbers; that committees should be appointed on finances, social affairs, industries and employment, education, culture, etc., composed of both honorary and club members. This proposal met with great favor and there is already a good list of honorary members. Those desiring to join the club or to become honorary members, are desired to apply to any officer to register their names in a book provided for the purpose at the rooms. Two gentlemen present Thursday evening volunteered to give the first and last ten dollars towards paying the debt of the club. Who will contribute to this good cause? The ladies who are taking hold this year are those who are forward in every good work whose names are written among the faithful in every Christian body in the city.
